In bound shipments:

SCAS receives Identity Preserved Soybeans from customers dealing at their grain handling facilities. IP soybeans are managed only through contracted acres. All Receipt for Non-GMO are confirmed by the customer to have been grown from seed that is non-genetically modified.

Storage and Handling of IP Soybeans:

All white hium soybeans that are handled on an identity preserved basis are held on a segregated basis from other product that SCAS will handle.

Out bound shipments:

All shipments requiring it will be tested for the roundup ready (trademark registered) using the EnviroLong; Roundup Ready Quick tix or other recognized test strips or methodology

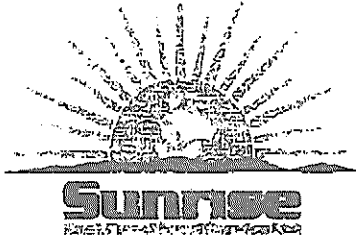

Procedurally:

As containers are shipped to the tall yard by trucks, a sample will be drawn from each container for testing purposes.
